Born into a family of intellectuals in Beijing, the author's life was turned upside down when the Cultural Revolution erupted in 1966. Her father, a university professor, was denounced as a "rightist" and sent to a labor camp. Her mother, a doctor, was forced to work as a cleaner. The author and her siblings were sent to live with their grandparents in the countryside.

But even in the face of such adversity, the author's spirit remained unbroken. She clung to her love of learning and her dreams of a better future. She secretly read books that had been banned by the government and taught herself English. She also found solace in painting and writing.

In 1977, the Cultural Revolution finally came to an end. The author was able to return to Beijing and resume her studies. She went on to become a successful journalist and writer. But she never forgot the horrors she had witnessed during the Cultural Revolution.

In this book, the author tells her story for the first time. She writes about the persecution she and her family endured, the resilience she found within herself, and the hope that sustained her through the darkest of times.

My Untold Story of Escaping the Cultural Revolution is a powerful and inspiring memoir that offers a unique glimpse into one of the darkest chapters in Chinese history. It is a story of courage, resilience, and the indomitable spirit of the human heart.
