In the tradition of Ernest Hemingway and Robert Ruark, Peter Hathaway Capstick was one of the world's most renowned hunters and adventurers. His books, which have sold millions of copies worldwide, are classics of the genre. *Safari: The Last Adventure* is Capstick's magnum opus, a gripping and evocative account of the last great African safaris.

Capstick traveled to Africa for the first time in 1953, and he quickly fell in love with the continent and its wildlife. He spent the next several decades hunting in Africa, and he became one of the most respected and successful hunters in the world. Capstick was also a gifted writer, and his books are full of vivid descriptions of the African bush, its animals, and the people who live there.

Safari: The Last Adventure is a journey through the golden age of African hunting. Capstick takes the reader on a series of unforgettable safaris, from the remote wilderness of the Congo to the vast savannas of the Serengeti. He describes the challenges and dangers of hunting big game, and he shares his insights into the lives and behavior of the animals he pursued.

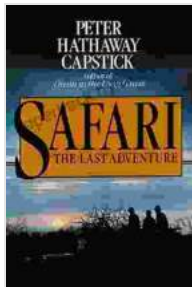

But *Safari: The Last Adventure* is more than just a hunting book. It is also a meditation on the beauty of the African wilderness and the importance of conservation. Capstick was a passionate advocate for wildlife conservation, and he believed that hunting could be a force for good. He argued that hunting could help to control animal populations, protect endangered species, and provide income for local communities.

Safari: The Last Adventure is a must-read for anyone who loves adventure, hunting, or Africa. It is a classic of the genre, and it is sure to leave a lasting impression on the reader.
